## PROFILE

Hello, I'm **Muhammed Zeki Yılmaz**. I am a **Frontend Developer**. I graduated from **Karadeniz Technical University** in **June 2025**, majoring in **Statistics and Computer Science**.

I am skilled in **React, Next.js, Tailwind CSS, and Node.js**. I enjoy learning new technologies and integrating them into real-world projects. I'm passionate about building **user-focused web applications** and continuously improving my development skills.

My goal is to **specialize in this field**, and in the future, become a **mentor and a team leader**.

## SKILLS

### FrontEnd

**Technologies:** React, Next.js, JavaScript (ES6+), TypeScript | **Styling:** Tailwind CSS, ShadCN/UI, Material UI, HTML5, CSS3 | **State:** Redux Toolkit, Redux, Context API | **Testing:** Cypress, React Testing Library

**Principles:** Clean Code, DRY & KISS, Responsive & User-Centered Design, Agile Practices

### BackEnd

**Technologies:** Node.js, Express.js, RESTful API, JWT | **Database & ORM:** MySQL, MongoDB, Sequelize, Mongoose

**Principles:** Clean Code, DRY & KISS, Responsive & User-Centered Design, Agile Practices

### Tools

Git, GitHub, GitHub Actions (CI/CD) | **IDE:** VS Code, Cursor | **API & Debugging:** Postman, Chrome DevTools | **Design:** Figma | **Package Managers:** NPM | **Database Tools:** MySQL Workbench

### Libraries & API Integrations

**Frontend:** React, React Router, Tailwind CSS | **State & HTTP:** ContextAPI, Redux, Redux Toolkit, Axios |

**Backend & Database:** Mongoose, RESTful & Custom APIs | **Third-Party APIs:** OpenWeather, Stripe, Firebase, Open-Meteo, Geocoding

## SUMMARY

I am a **user-focused Frontend Developer** with strong expertise in **TypeScript** for React-based projects. I am proficient in **state management** using **Redux Toolkit, Redux, and Context API**, and I build **responsive, high-performance, and user-friendly interfaces**.

By applying **Clean Code** principles and **design patterns**, I create **maintainable and scalable architectures**. I also have experience in **Full-Stack development** with **Node.js** and **MongoDB**, delivering **end-to-end reliable solutions** in **Agile environments**.

## PROFESSIONAL EXPERIENCE

### Workintech, FrontEnd Developer Intern

09/2025 – Present

Istanbul/Turkey

During my internship, I assisted in the **development and maintenance of responsive web applications**, collaborated with the team on **UI/UX improvements**, and gained **hands-on experience with React, HTML, CSS, and JavaScript**.

Additionally, I contributed to the **implementation of small features and bug fixes**, helping to **enhance the overall quality of the project**.

## PROJECTS

---

### **Chat-App – Real-Time Messaging Application**

**Technologies:** React.js, Node.js, Express.js, Socket.io, MongoDB, JWT, BCrypt, Context API, Git, Github

**Keywords:** Real-time Communication, WebSocket, User Authentication, Instant Messaging, Responsive Design, State Management

### **Twitter Clone - Modern Social Media Platform**

**Technologies:** Node.js, Express.js, Mongodb, Github, TailwindCSS, React.js

**Keywords:** Twitter Clone, MERN Stack, Social Media App, Real-time Notifications, User Authentication, JWT Auth, Cloudinary Image Upload, REST API, React Query, Tailwind CSS, Node.js, MongoDB

### **WeatherApp - Real-time Weather Application**

**Technologies:** React.js, CSS3, OpenWeather API, GeocodingAPI, Axios, Git, Github, Netlify

**Keywords:** Weather Forecasting, API Integration, Responsive Design, Location-based Services, Real-time Data, User-friendly Interface, Geolocation

### **Note Taking App – Your Personal Digital Notebook**

**Technologies:** React.js, Firebase, JWT, Git, Github, TailwindCSS, React Query

**Keywords:** Note Taking App, Firebase Authentication, Personal Notes, CRUD Operations, User Authentication, Password Reset, Private Notes, React Hook Form, TanStack Query

### **NextJs-Food-Ordering - Çevrimiçi Yemek Sipariş Platformu**

**Technologies:** Next.js, React, TypeScript, TailwindCSS, Node.js, Express.js, MongoDB, JWT, Git, Github

**Keywords:** Online Food Delivery, Cart Management, User Authentication, Responsive Design, REST API, Order Tracking, Payment Integration, Real-time Updates

### **Mern-Advanced-Auth - Advanced Authentication System**

**Technologies:** React.js, Node.js, Express.js, MongoDB, Mongoose, JWT, BCrypt, Nodemailer, Git, Github

**Keywords:** User Authentication, Authorization System, Email Verification, Password Reset, Secure Login, Session Management, JWT Tokens, User Management

## CERTIFICATES

---

- |   |   |   |   |
|---|---|---|---|
| • MongoDB Achievement Certificate – Turkcell  | • Front-End Development with React – Turkcell                                       | • Backend Programming with Node.js – Turkcell                                       | • EF SET English Certificate 54/100 (B2 Upper Intermediate)                           |
